

1.0 DESIGN REQUIREMENTS

- 1.1 The principals of CPTED should be consider and reviewed at each stage of the project from pre-design through to occupancy, with reference to the extensive literature on this subject.
- 1.2 Project design features that address CPTED issues should be flagged for consideration in the plan reviews by representatives of Facilities Management, Campus Planning, Health Safety and Environment, and Campus Security.
- 1.3 On complex, large projects, consideration should be given to including a CPTED consultant to the Project Team.
